# Florida: every surgery center and its owner, on the public record

**SPECIMEN. This is a short sample. The delivered Florida Register runs 50 pages and names all 551 centers, each with its owner. It carries every name and number this copy masks.**

**Florida is sold to one company in each category of business. That exclusivity runs for one year, and it is renewable.** Terms are in section 10.

CertaGrid Health, Inc. Surgery Center Register, Florida. Public record only. Reconciled 17 November 2026.

## 1. Start here: five ways to put this Register to work

1. **Go straight to the centers that do your kind of surgery.** Section 3 names them by specialty. In Florida: eye 87, pain 69, orthopedic 63, plastic 55, GI 53, podiatry 28.
2. **Win several centers through one owner.** Section 5 lists each owner of two or more with every center it holds. 16 owners hold 46 centers. The largest: Owner A (7 centers); Owner B (5 centers); Owner C (4 centers).
3. **Get to new centers and new owners early.** Section 4 names the 27 independent centers whose owner of record dates from 2025 or 2026.
4. **Call on centers that are on no Medicare list.** Section 7 names 21 single centers, and 2 more sit under owners in section 5.
5. **Check any account before you call.** The index in section 9 finds every center in Florida by name and says who holds it.

Two more uses. If you sell to a practice platform's own office, section 5 names each platform: 10 practice platforms hold 30 of Florida's independent centers. If a center you know is missing from the independent sections, section 8 shows which hospital system or operator it is set aside under.

Read a row left to right: the center, its specialties, the owner on its license, when that owner came on, whether it is Medicare-certified, and the record the row rests on. A **Note** in the last column means the record left a question, and says what it is.

## 2. What this Register is

Every ambulatory surgical center in Florida, each placed under the owner the public record names. Every center was checked against the current record. Hospital systems and national surgery-center operators are set aside and listed by name at the back, and an A-to-Z index of every center closes the document. What remains is the independent market. Each independent owner is labeled: a practice platform (a company that owns physician practices and their surgery centers with them) or a physician-owned or other local owner. Beside every row is the record it rests on, and where a record leaves a doubt, the row says so.

| Florida, November 2026 | Centers | Medicare-certified |
|---|---|---|
| Hospital systems (set aside; listed by owner at the back) | 169 | 169 |
| National surgery-center operators (set aside; listed by owner at the back) | 97 | 92 |
| **Independent centers** | **285** | **262** |
| **Total in Florida** | **551** | **523** |

| The 285 independent centers, two ways | Centers | Medicare-certified |
|---|---|---|
| Held by owners of two or more Florida centers (16 owners) | 46 | 44 |
| Single centers | 239 | 218 |
| **Total** | **285** | **262** |
| Owned by a practice platform (10 platforms) | 30 | 30 |
| Physician-owned or other local owner | 255 | 232 |
| **Total** | **285** | **262** |

3 of Florida's 551 centers are in the state's licensing review and not yet licensed; they are marked in the rows.

## 3. Independent centers by specialty

**The delivered Register names every center under each specialty it has on record.** A center with several specialties appears under each, so the counts below add to more than 285. 41 of the 285 have no specialty on record.

| Specialty | Independent centers |
|---|---|
| eye | 87 |
| pain | 69 |
| orthopedic | 63 |
| plastic | 55 |
| GI | 53 |
| podiatry | 28 |
| OB-GYN | 23 |
| ENT | 18 |
| cardiovascular | 14 |
| dental | 10 |
| other | 12 |
| no specialty on record | 41 |

## 4. Movement: independent centers whose owner of record dates from 2025 or 2026

27 of Florida's 285 independent centers carry an owner-of-record date of 1 January 2025 or later. **The delivered Register names each center and its owner.**

## 8. Set aside: hospital systems and national surgery-center operators, by owner

23 hospital systems hold 169 of Florida's 551 centers and eleven national surgery-center operators hold 97. **The delivered Register lists every one of those 266 centers by name under its owner, with a tally for each owner and a total for each kind.** No center in Florida is left off the page.

## 9. A-to-Z index of every center (551)

**The delivered Register ends with an index of all 551 centers in Florida by name, each with the section in which it appears,** so that any center you know can be found, whether it is independent or held by a system or an operator.

## 10. Sources, corrections and terms

State licensing and corporate records, the federal Medicare file, operators' own filings and announcements, and published ownership data confirmed against them. Every row carries the record it rests on. A public record shows who holds and controls a center. It does not show every minority share.

**Corrections.** If you show us a row that the public record contradicts, we correct it within five business days and send the corrected Register to every holder of the Florida Register.

**Terms.** Florida, the whole state, $6,000. It is sold to one company in each category of business. That exclusivity runs for one year, and it is renewable. The first year includes the quarterly refreshes; each refresh opens with what changed. Renewal is half the fee a year. https://www.certagridhealth.com
