Texas: every surgery center and its owner, on the public record

SPECIMEN. This is a short sample. The delivered Texas Register runs 62 pages and names all 644 licensed centers, each with its owner. It carries every name and number this copy masks.

Texas is sold to one company in each category of business. That exclusivity runs for one year, and it is renewable.

CertaGrid Health, Inc. Register of record as of the October 2026 state licensing roster and the federal Medicare file for the third quarter of 2026. Public record only. Prepared November 2026; reconciled 16 November 2026.

1. Start here: five ways to put this Register to work

1. **Go straight to the centers that do your kind of surgery.** Section 3 names them by specialty. In Texas: pain 131, orthopedic 77, eye 71, plastic 59, GI 53, foot 49.
2. **Win several centers through one owner.** Section 5 lists each owner of two or more with every center it holds. 26 owners hold 64 centers. The largest hold four centers each.
3. **Get to new centers early.** Section 4 names the 33 licenses that took effect in 2026. 21 of them are independent.
4. **Call on centers that are on no Medicare list.** Section 7 names 55 single centers, and 15 more sit under owners in section 5.
5. **Check any account before you call.** The index in section 10 finds every licensed center in Texas by name and says who holds it.

Two more uses. If you sell to a practice platform's own office, the rows name each platform: 18 practice platforms hold 35 of Texas's independent centers. If a center you know is missing from the independent sections, section 8 shows which hospital system or operator it is set aside under.

Read a row left to right: the center, when its license took effect, whether it is Medicare-certified, its rooms and services, and the record the row rests on.

2. What this Register is

Every ambulatory surgical center licensed in Texas, grouped by the owner the public record names, with hospital systems and national surgery-center operators set aside and listed by name at the back, and an A-to-Z index of every licensed center at the end. What remains is the independent market, and each owner in it is labelled: a practice platform (a company that owns physician practices and their surgery centers with them) or a physician-owned or other local owner. For each center the state license number, the center as licensed, the license date, Medicare certification, rooms and services, and beside each row the record that ties the center to its owner. Section 4 is the year's movement: the licenses that took effect in 2026.

Texas, October 2026	Licenses	Medicare-certified
Units of a hospital (set aside)	56	6
Hospital systems (set aside; listed by owner at the back)	205	199
National surgery-center operators (set aside; listed by owner at the back)	83	78
Independent centers	**300**	**230**
Total licensed in Texas	**644**	**513**

The 300 independent centers, two ways	Licenses	Medicare-certified
Held by owners of two or more Texas centers (26 owners)	64	49
Single centers	236	181
Total	**300**	**230**
Owned by a practice platform (18 platforms)	35	26
Physician-owned or other local owner	265	204

The 300 independent centers, two ways	Licenses	Medicare-certified
Total	**300**	**230**

3. Independent centers by specialty

The delivered Register names every center under each specialty. Specialties are the services each center has on file with the state. A center with several specialties appears under each, so the counts below add to more than 300.

Specialty	Independent centers
pain	131
orthopedic	77
eye	71
plastic	59
GI	53
foot	49
general surgery	49
neurological	35
ENT	30
cardiovascular	28
urology	28
OB-GYN	17
oral	12
thoracic	3
other	64

4. Movement: licenses effective in 2026

33 licenses in Texas took effect in 2026 as of the October roster; 21 of them are independent. 28 are at centers with no earlier Medicare certification on file, and 5 at centers certified earlier.

License	Center, as licensed	County	License effective	Medicare	Owner	Read
[redacted]	E[redacted]	Ellis County	01/09/2026	state license only	independent: physician-owned or other local owner	new license, no earlier certification on file
[redacted]	T[redacted]	Montgomery County	01/12/2026	certified 09/17/2024	hospital system	license reissued at a certified center
[redacted]	U[redacted]	Hidalgo County	01/12/2026	certified 07/03/2026	hospital system	new license, no earlier certification on file
[redacted]	S[redacted]	Harris County	01/15/2026	state license only	independent: physician-owned or other local owner	new license, no earlier certification on file
[redacted]	N[redacted]	Potter County	01/15/2026	state license only	unit of a hospital	new license, no earlier certification on file

	Total, 33 licenses				**21 independent**	

5. Owners of two or more centers (26 owners, 64 licenses)

Owners who hold two or more licenses in Texas, ordered by licenses held. The basis column names the record that puts the center under the owner. Owned against partnered is not read here.

A practice platform (four licenses)

4 licenses, 3 Medicare-certified; practice platform, named in the delivered Register.

License	Center, as licensed	County	License effective	Medicare	Rooms	Services	Basis
[redacted]	P[redacted]	Bell County	10/21/2014	certified 12/13/2014	2 OR	pain management	published ownership data, federal file confirmed
[redacted]	P[redacted]	Travis County	04/27/2007	certified 09/26/2007	2 OR	pain management	published ownership data, federal file confirmed
[redacted]	P[redacted]	Williamson County	03/18/2026	state license only	3 rooms (state)	pain management	published ownership data, federal file confirmed
[redacted]	P[redacted]	Travis County	05/31/2023	certified 09/28/2023	2 rooms (state)	orthopedic, pain management	published ownership data, federal file confirmed
	Total, 4 licenses			**3 certified**			

A local owner (four licenses)

4 licenses, 4 Medicare-certified; physician-owned or other local owner.

License	Center, as licensed	County	License effective	Medicare	Rooms	Services	Basis
[redacted]	A[redacted]	Potter County	09/25/2018	certified 04/17/2019	4 OR	neurological, pain management	published ownership data, federal file confirmed
[redacted]	A[redacted]	Travis County	07/15/2021	certified 11/15/2021	3 OR	neurological, pain management	published ownership data, federal file confirmed
[redacted]	A[redacted]	Bell County	07/19/2023	certified 10/03/2023	3 rooms (state)	neurological, pain management	published ownership data, federal file confirmed

License	Center, as licensed	County	License effective	Medicare	Rooms	Services	Basis
[redacted]	A[redacted]	Williamson County	04/27/2009	certified 09/01/2009	4 OR	neurological, orthopedic, pain management	published ownership data, federal file confirmed
	Total, 4 licenses			**4 certified**			

24 further owners follow in the delivered Register, each with its table and its label: eight held by practice platforms, each platform named, and sixteen physician-owned or other local owners.

6. Single centers, Medicare-certified (181)

One licensed center per owner on the record read. Where the record names a practice or a practice platform behind the center, it is given.

License	Center, as licensed	County	License effective	Medicare	Rooms	Services	Practice or platform behind the center	Basis
[redacted]	A[redacted]	Taylor County	03/11/2009	certified 08/27/2009	2 OR	ophthalmology		state licensing record
[redacted]	A[redacted]	Taylor County	12/01/2015	certified 03/01/2016	1 OR	neurological, pain management		state licensing record
[redacted]	A[redacted]	Travis County	09/05/2025	certified 12/17/2025	3 rooms (state)	foot, orthopedic, pain management		state licensing record
[redacted]	A[redacted]	Potter County	01/21/2025	certified 04/09/2003	2 OR	pain management		state licensing record
[redacted]	A[redacted]	El Paso County	06/04/2024	certified 08/27/2024	3 rooms (state)	orthopedic, otolaryngology, pain management		state licensing record
[redacted]	A[redacted]	Dallas County	09/06/2016	certified 11/17/2017	3 OR	cardiovascular, pain management, plastic	P[redacted]	published ownership data, federal file confirmed
...	*181 rows in the delivered Register*							

7. Single centers, state license only (55)

One licensed center per owner on the record read. Where the record names a practice or a practice platform behind the center, it is given.

License	Center, as licensed	County	License effective	Medicare	Rooms	Services	Practice or platform behind the center	Basis
[redacted]	A[redacted]	Harris County	04/28/2017	state license only	4 rooms (state)	plastic		state licensing record
[redacted]	A[redacted]	Harris County	08/16/2023	state license only	8 rooms (state)	pain management		state licensing record
[redacted]	A[redacted]	Harris County	11/27/2023	state license only	3 rooms (state)	plastic		state licensing record
[redacted]	A[redacted]	Harris County	11/13/2025	state license only	4 rooms (state)	oral, otolaryngology, plastic		state licensing record
[redacted]	A[redacted]	Montgomery County	07/02/2010	state license only	2 rooms (state)	general, plastic		state licensing record
[redacted]	A[redacted]	Travis County	01/04/2018	state license only	1 rooms (state)	orthopedic, pain management		state licensing record
...	*55 rows in the delivered Register*

8. Set aside: hospital systems and national surgery-center operators, by owner

22 hospital systems hold 205 of Texas's 644 licenses and fourteen national surgery-center operators hold 83. The delivered Register lists every one of those 288 centers by name under its owner, with a tally for each owner and a total for each kind, and names the 56 surgery units run as departments of a hospital. Nothing licensed in Texas is left off the page.

9. In the federal file, not on the state roster (10)

Ten centers certified by Medicare in Texas do not appear on the October state roster under their certification number or address. They are outside the 644 licensed centers this Register counts, and the delivered Register lists them so that a federal list can be reconciled to the state's. Separately, fifteen of the 300 independent rows carry a note saying what remains open on the record.

10. A-to-Z index of every licensed center (644)

The delivered Register ends with an index of all 644 licensed centers in Texas by name, each with the section in which it appears, so that any center can be found whether it is independent or held by a system or an operator.

11. Sources, corrections and terms

State licensing and corporate records, the federal Medicare file, operators' own filings and announcements, and published ownership data confirmed against them. Every row carries the record it rests on. Owned against partnered is not read here.

Refreshed quarterly from the state roster and the federal file; each refresh opens with the quarter's movement. Terms: Texas, the whole state, $6,000. It is sold to one company in each category of business. That exclusivity runs for one year, and it is renewable. The first year includes the quarterly refreshes; renewal is half the fee a year. If you show us a row that the public record contradicts, we correct it within five business days. https://www.certagridhealth.com
